platform that enables the optimisation and total control of sales processes and the consequent drastic reduction of transactional costs.

Simplex's technological platform, which will be developed, maintained, and furthered by the TXT Group, by leveraging on TXT Novigo's consolidated, specialised and innovative skills, will consist of an integrated end-to-end platform. This platform will be made available to direct and indirect distribution networks, enabling the commercialisation of selected insurance products thanks to the relationship with partner companies and the construction of a management and commercial model which will be fully integrated with current regulations, partner companies, giving the possibility to scale national and international markets of reference.

For the construction, maintenance and development of the Simplex's technological platform, TXT Novigo signed a service and software licence agreement with the start-up company for a total value of more than €2 million for the next five years, excluding future extensions.

When evaluating the investment, in addition to the licensing revenues of the platform provided to Simplex and its possible developments, TXT noted several strategic aspects, such as the entry into the Insurtech market and the opportunity to play a primary role in the digitalisation of the *Protection* and *Wealth Management* insurance sectors.

The investment in Simplex was unanimously approved by TXT's Board of Directors.
