Core Markets & Incidence

We are expanding across different markets, with a **growing footprint** in Aerospace, Aviation, Defense, Industrial, Automotive, Telco, Government and Fintech, by leveraging more than 2000 experts, **competence centers** in AI, cybersecurity, XR, IoT.

9m-2023 Subsequent Events & Business Evolution

Smart Solutions: New Line of Business, Expanded Geography

- **New office in Montreal, Canada:** PACE Canada Aerospace & IT has been founded in Q2-2023 to support operations of new international software businesses for the **Aerospace & Aviation industry**.
- **Embedded Graphics Business (“EG”) – VAPS XT:**
 - Following closing of the investment agreement to acquire EG business and technology from Presagis, wholly owned subsidiaries of CAE Inc, **from October 2023, TXT consolidates** the financial results of the new acquired **EG business**;
 - **EUR 4+ Mn of recurrent revenues** from licenses and maintenance;
 - **15+ specialised technical resources** and aerospace experts working for the software factory located in Montreal;
 - **30+ active customers**, including blue-chips, worldwide located.
 - Expected benefits from **cross-selling of specialised services** and **up-selling of Smart Solutions** within above mentioned customers.

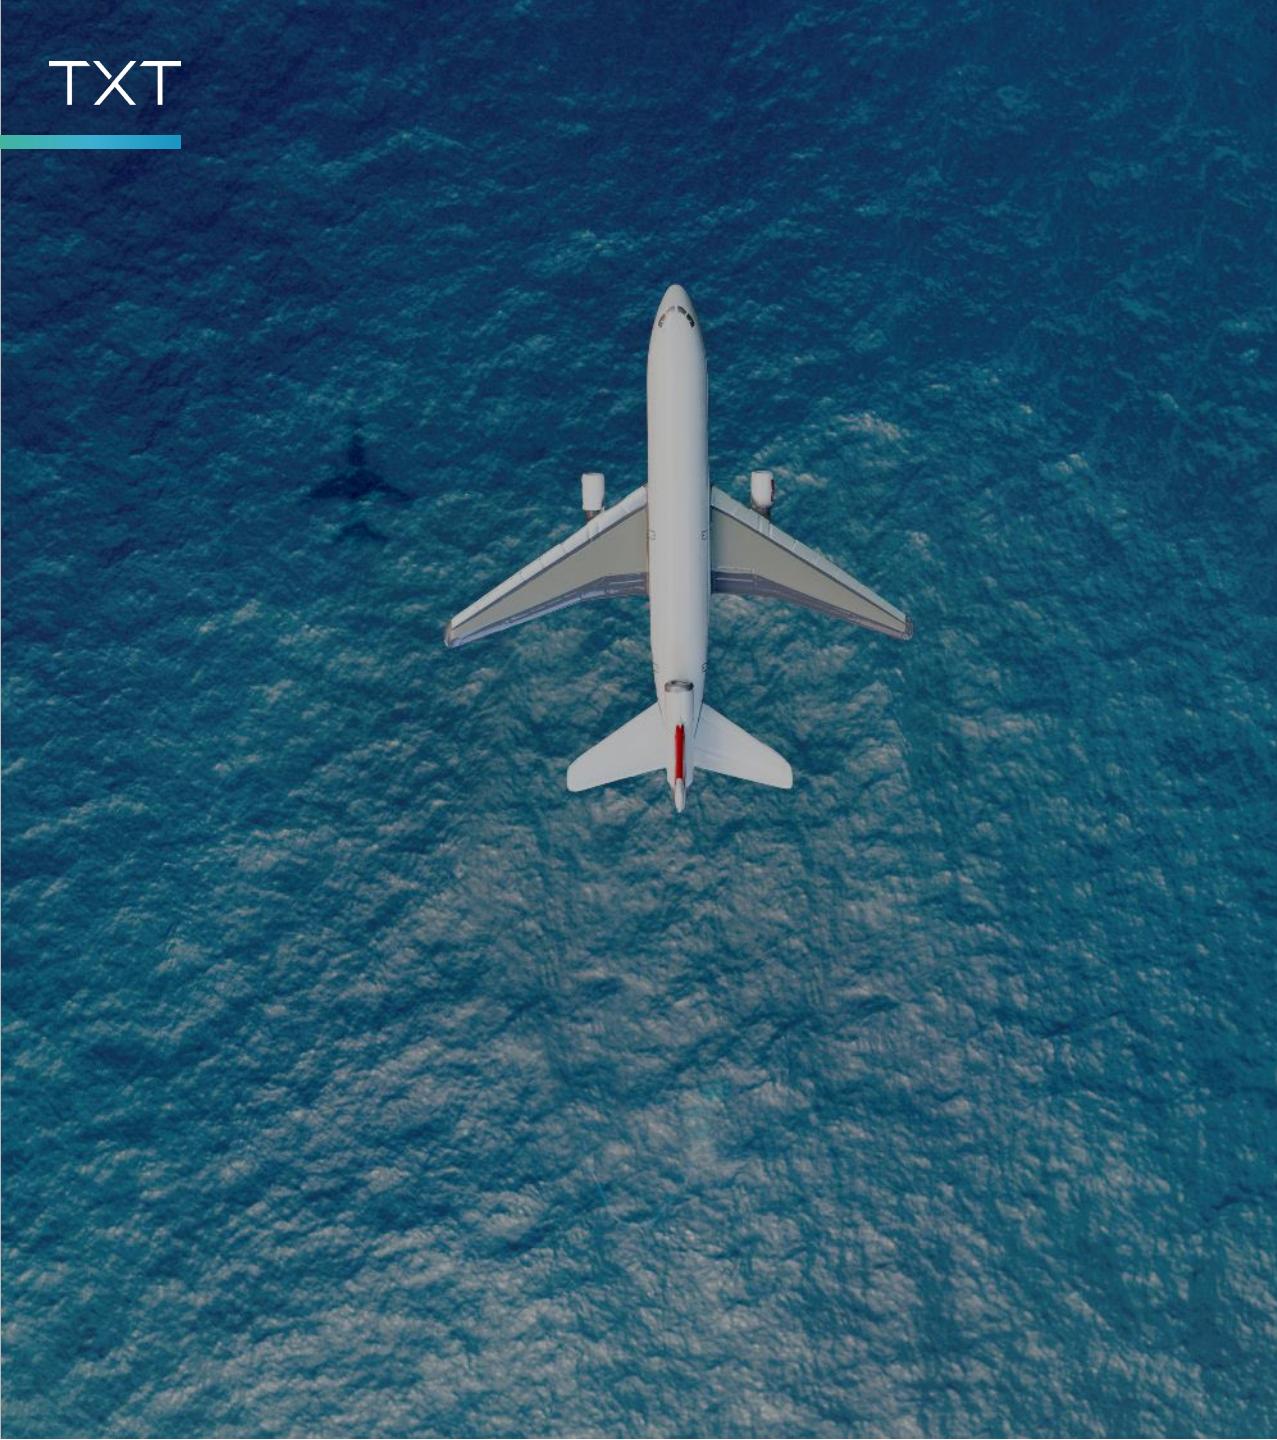

ReVersal SIM:

- ReVersal SIM, a Fintech start-up capitalized by TXT during 2021 with an initial investment of € 0.5 Mn that allowed TXT to own the majority of its share capital (51%), has been authorized from July 2022 to operate as a securities brokerage firm regulated by Bank of Italy and Consob Italian's Stock Exchange Authority.
- The Board and management team of ReVersal SIM includes expert Asset Managers as Giuseppe Vegas, former Chairman of CONSOB, while **TXT** is operating as **digital partner** of ReVersal SIM **providing technologies and process innovation**.
- ReVersal SIM aims to provide a **new offer model that reverses the current asset & wealth management national industry**.
- On September 12th, 2023, ReVersal SIM signed an **exclusive agreement** with **Northern Trust Asset Management** - leading global investment manager with \$ 1 Bn AUM - for the distribution of Asset Management's solutions to their retail client, boosting value and offering of ReVersal SIM.
- ReVersal SIM represents a strategic financial investment for TXT in terms of both expected ROI and business partner. Results of ReVersal SIM are **not consolidated in the TXT financials** due to the nature of its business.

Smart Solutions: PACE to provide FPO Real-Time Optimization for JetBlue Fleets

- **Multi-year subscriptions contract** with initial **annual value of up to over \$1 Mn** signed with the US airline JetBlue for the provision of **ESG platform Pacelab FPO**. Operations starts in 2024.
- On October 9th, 2023, PACE – a TXT company, announced that FPO-SR, the solutions that combines PACE's FPO and business partner Nexteon's SmartRoutes solution, has been **selected by JetBlue to optimize the vertical and lateral profiles of each JetBlue flight in real time**, taking into account weather, traffic, and the availability of airspace.
- FPO-SR's continuous holistic optimization enables **JetBlue to benefit from fuel burn savings and reduction in the environmental impact of the emissions**. FPO-SR can be customized and configured for each specific airline's operations and can support Collaborative Decision Making (CDM) between the cockpit crew and their dispatcher to ensure coordination between ground operations and the flight deck.

Digital Advisory: New Public Contracts Expected in Q4

- Division recorded a **+38.8% organic growth** in the first **9 months** of 2023 (**+43.9% in Q3-2023**) led by the start and consolidation of the activities on CONSIP contracts (**Public Sector**).
- **New public contracts and strategic opportunities ahead:** in Q4-2024 TXT is consolidating its position as leading player in the digital transformation of the Italian Public Sector, with **new contracts expected to be disclosed soon.**
- **Health care:** benefits from **synergies** from M&A-22, that led to the **acquisition of new contracts** in both public and private health sector.
- **Cybersecurity:** positive trend from first 9 months 2023 confirmed, with new main contracts in the **space domain** and **strong cross-selling opportunities**.

Software Engineering: Main Business Updates

- Division recorded a **double-digit organic growth** in the **first 9 months of 2023 (+12.2%)**, with an acceleration in **Q3-2023 (+13.4%)** with main drivers of the growth consisting of **new multi-million contracts** in the **Aerospace & Defence** segment, which recorded a **+20% organic growth** in the first 9 months 2023 and foresees further growth in the coming periods.
- Other main factors that boosted the growth and will support further development of Software Engineering business are synergies between different excellences of the TXT Group ecosystem:
 - **Technological synergies in the DevOps offering** with the integration of strong know-how owned by Assioma within the digital offering of Ennova.
 - **Technological synergies in the QA offering** by adding Validation & Verification competences owned by TXT Quence to the offering of Ennova in the Telco & Gaming industry.
 - **Commercial synergies** between Ennova and other TXT Group companies are pushing the digital offer of Ennova towards new market as the Fintech and the Public Sector.
